

# Advanced Air Sealing Technology Enhances Your Home

AeroBarrier stands out with its advanced automated air sealing technology, offering an alternative to traditional manual methods. AeroBarrier's system seals the exterior of homes, delivering a range of benefits that enhance both the living experience and the overall efficiency of your home.

## WHAT DOES AEROBARRIER DO FOR ME?

aerobarrier

### COMFORT

Fewer drafts mean consistent temperatures and humidity throughout your home.

### PESTS

Sealing air leaks is a first defense against insects and pests.

### INDOOR AIR QUALITY

Air sealing helps prevent pollutants, allergens, dust, and humid air can't get into your home.

### PREVENT MOISTURE ISSUES

Maximize safety and durability by minimizing moisture, mold, and mildew.

### ENERGY COSTS

Keeping heat indoors during the winter and out in summer leads to lower utility bills.

### QUIETER HOME

Reduce outside noise from traffic and neighbors.

## What is AeroBarrier?

AeroBarrier is an automated air sealing system designed to effectively seal leaks. Trusted by home builders, it addresses air leaks in the exteriors of newly constructed homes. Our sealant is both safe and durable, and it holds the GREENGUARD Gold Certification for indoor air quality.
